

Fayetteville NC Real Estate Listings

Homes provided on my website are not all my listings, they come from the MLS. The individual listing agent for these listing is the ones who provide the information on the discriptions to the homes. They are then pushed through an IDX feed onto my website. I am not the listing agent to all these homes and do not discriminate against anyone, nor will I. I cannot control what the original listing agent and firm writes on their listing that is pushed onto my site, just know if there is anything that can be interpited as discrimitory in the remarks, I did not write it and shall be held harmless. By visiting my website and viewing homes, you hold me and my company harmless from any discrimitory action, should you find something that violates this on any listing.

Tips for First Time Home Buyers

There are some very important tips every first time home buyer should know before buying a home. As a real estate agent, I love working with first time home buyers. One, it gives me a chance to help educate them on the home buying process and hopefully help them make a wise financial investment. Two, I really enjoy watching and hearing the excitement when they find out they can actually buy a home and when they actually find the home they love. I love those moments! Certain tips for first time home buyers should not be skimmed over or skipped, this will cause frustration and resentment in the whole home buying process. As a first time home buyer, you should look back on the experience and have positive things to say, it can and should be a fun time.
